

BESCHREIBUNG KURSANGEBOT:

BABYBADEN AB 8 MONATEN (ENGLISH)

Kursnummer: 251410

Ort:	Rialto, Kursschwimmbecken Bahn 1		
	Adresse:		
	Birsigstrasse 45 4054 Basel		
Lerninhalt:	The focus of the baby bathing course is on the baby and its joy in the		
	water. The respiratory reflex, which exists until the baby is about 8		
	months old, makes it possible for babies from the age of 4 months to		
	gently dive and move in the water. This is an ideal prerequisite for early		
	motor development. The learning material is passed on to the baby by		
	the parents in a playful way under expert guidance. Thanks to regular		
	exercises that stimulate movement, the baby is able to experience the		
	element of water without fear. In addition, the conscious and		
	controlled activities with the baby promote the basic trust and the		
	bond with the caregiver. A wonderful experience for both sides!		
	Advantages for you and your child:		
	- The parent-child bond is strengthened.		
	- Blood circulation is stimulated, all parts of the body are supplied with		
	oxygen, which makes the children fit and more receptive.		
	- The respiratory muscles are strengthened and the lung function		
	improved by the water pressure and resistance.		
	- Strengthening of the supporting and postural muscles		
	- Gross and fine motor skills are promoted		

- Contact with other children promotes social competenceals Trockenübungen
